Subject: Pavillion Area Well Bore Integrity Work

We need to talk before the October 10 Working group meeting about the status and next steps associated with the well bore integrity work. I cancelled our phone call that was scheduled for today and apologize for any inconvenience. What I want to do here is find another day and time that will work for the majority of you. Please check your calendars and let me know which of the following days and times you are available.

September 13, 10:30 am to 2:2:30 PM.

September 18, anytime during the day.

September 20, anytime in the afternoon.

The call should only take an hour, and we will talk about what next steps are necessary to advance the well bore integrity studies.

In preparation for that call, I am asking Tom Kropatch and/or Gary Strong to schedule a separate technical call ahead of time to assess the data we now have and prepare a summary of what we know and don't know about the wells and to identify needs and gaps that will allow us to identify next steps. I suggest that you take a look at the matrix Greg had drafted as well as the map that Deb drafted that were intended to help us focus our efforts. I think these will be useful tools for you.

Thanks for your patience and your efforts!
